

Meet Chhugani

AI & Machine Learning Undergraduate

+91-7862806190 | Gujarat | meetchhugani81@gmail.com | Portfolio: [meetchhugani.vercel.app](#) | GitHub: [MeetChhugani](#) | LinkedIn: [meet-chhugani](#)

PROFESSIONAL SUMMARY

Data Science and Information Technology undergraduate passionate about building hands-on Machine Learning models, NLP pipelines, and AI applications using Python and SQL. Experienced in performing exploratory data analysis (EDA), data preprocessing, feature engineering, and applying classification, regression, and statistical analysis to solve business problems. Skilled in building interactive web prototypes with FastAPI and Streamlit, integrating LLMs, and translating data into clear actionable insights.

EXPERIENCE

Data Analytics Intern

Jan 2026 – Feb 2026

iStudio

- Built data extraction and cleaning scripts in Python to perform data transformation and preprocessing on structured datasets.
- Conducted exploratory data analysis (EDA) and statistical analysis using SQL, Pandas, and NumPy to discover key patterns and metrics.
- Created data visualizations and analytical reports to present actionable business insights, collaborating with team members and documenting data workflows.

Python with Django Intern

Jun 2025 – Jul 2025

Brainybeam Info-Tech Pvt. Ltd.

- Assisted in developing web application features and database interactions using Python and Django.
- Developed REST API endpoints and database queries while adhering to version control practices with Git and GitHub.
- Participated in code testing, debugging, and project documentation to support software reliability and feature iteration.

PROJECTS

AI-Powered Mock Interview Analyzer

Python, FastAPI, MediaPipe, NLP, Speech Analysis, REST APIs

GitHub: [github.com/MeetChhugani/ai-interview-analyzer](#)

- **Problem & Goal:** Communication and posture assessment during technical mock interviews often lack quantitative analysis.
- **Technical Implementation:** Developed a FastAPI backend connecting MediaPipe computer vision for facial landmark tracking with NLP speech-to-text processing.
- **Outcome:** Delivered REST API endpoints that compute real-time feedback on candidate posture and speech metrics under <150ms latency.

Employee Risk Radar

Python, Scikit-learn, XGBoost, SHAP, Streamlit

Live Demo: [employee-risk-radar-xexmbf3kfedcvxdrdgbnnh.streamlit.app](#)

- **Problem & Goal:** HR teams struggle to identify early employee attrition factors and interpret predictive model outputs.
- **Technical Implementation:** Performed data cleaning and feature engineering on structured HR data, trained an XGBoost classification model with SMOTE, and evaluated it with a **0.77 ROC-AUC** score.
- **Outcome:** Integrated local SHAP explainability to highlight top attrition drivers and deployed an interactive Streamlit web dashboard.

QuizLab

Python, Streamlit, LLMs, OCR, NLP, Prompt Engineering

Live Demo: [quizlab-ed8.streamlit.app](#)

- **Problem & Goal:** Manual creation of study quizzes and flashcards from educational documents is slow and repetitive.
- **Technical Implementation:** Built an OCR document processing and NLP pipeline to extract text from uploaded files and engineered prompts for LLM knowledge extraction.
- **Outcome:** Created a Streamlit application that automates document text parsing and quiz generation with execution speed under <50ms.

TECHNICAL SKILLS

- **Programming:** Python, SQL
- **Machine Learning:** Scikit-learn, Classification, Regression, Feature Engineering, NLP, LLMs, SHAP
- **Data Analytics:** EDA, Data Cleaning, Data Preprocessing, Data Transformation, Data Visualization
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Plotly
- **Frameworks:** FastAPI, Streamlit
- **Databases:** PostgreSQL, MySQL
- **Developer Tools:** Git, GitHub, Jupyter Notebook

CURRENTLY LEARNING

- Salesforce Data Cloud Fundamentals, Advanced Machine Learning Concepts

EDUCATION

Gyanmanjari Innovative University, Bhavnagar, Gujarat

2023 – Present

Bachelor of Technology in Information Technology

CERTIFICATIONS

- IBM Data Science Professional Certificate
- Machine Learning Specialization – DeepLearning.AI & Stanford
- Deloitte Data Analytics Virtual Experience
- Google Advanced Data Analytics Professional Certificate
- Python for Data Science, AI & Development – IBM
- Green Skills & AI Foundation Program
